Design Software Info
(Getting & Installing)

1

We provide 2 design packages for use with your new Handibot (V2) Adventure Edition

V-Carve Pro, ShopBot Edition … a great 2.5D CAD/CAM program for *getting started with digital fabrication.* V-Carve Pro also includes CAM functions for machining 3D models.
*RUNS ON: Windows PC

Fusion360, 1-year Commercial Subscription … a cloud-oriented, 3D modeling software with CAM functionality included. *Engineering and machining level CAD/CAM* in a collaborative environment.
*RUNS ON: Windows PC or Mac

Both Packages allow you to design projects and create job files (tool-paths) that you can run on your Handibot.

2

***To Download and Install V-Carve Pro, ShopBot Edition:**

{*we sent an email to you shortly after we received your order; it is easier to access V-Carve from the email since you can cut and paste the information}

Go to >
http://www.shopbottools.com/partware/VCarveProShopBotEditionV8014_Setup.exe

To access the download you will need the following temporary code:
User Name: p58683822-0
Password: p@rtw)rks

When you start up V-Carve Pro after installing it, you will need your permanent *User Name* and *License Code* (**exactly**, as they appear in the email, or on the last page of your Unboxing Instructions).

Your Name and Codes will be here …

17 Don't forget to read (and keep handy) your safety manual! The sticker below displays your software codes for vCarve Pro ShopBot Ed.

3

To Download, Install, and Activate Fusion360:

Go to >
Autodesk.com/products/fusion-360-promo

Access code: shopbotpartner
